

“LAW AND JUDICIAL REMEDIES: CIVIL LAW, COMPARATIVE LAW, ROMAN LAW”

The PhD program has two specific paths:

1) JUDICIAL REMEDIES, MANAGEMENT AND COMPANY LAW

The path aims at educating the student in managing complex legal issues with an interdisciplinary approach, from both a substantive and a procedural legal perspective, taking into account legal comparison and issues of internationalization. Attending students will be guided and directed, integrating theoretical knowledge with practical training in judicial institutions, professional organizations, business management and administration.

2) ROMAN LAW, CIVIL LAW AND COMPARATIVE LAW

The path aims at providing knowledge and understanding of the role: 1) of: Roman Law in the contemporary legal systems (Europe, Latin America and Asia); 2) of: Islamic Law in the contemporary legal systems.

The Didactic Plan is divided into various different kinds of initiatives such as lectures, seminars, meetings, discussion of researches. The activity is relating to themes that link the substantive law to the legal protection techniques, issues related to intellectual property, company law and insolvency procedures, contracts and consumer protection, property guarantees, European Union and internationalizations legal issues.

The Plan is also particularly sensitive to the legal news.

As many initiatives are organized shortly after the news, it is not possible to have in advance annually the whole framework of them, but these could be found in the communications and documentation given before their organization, and sometimes these are converging into editorial initiatives with essays published collectively or in Legal Reviews.

The Ph. D. Program pursues the largest dissemination of the results obtained through the research undertaken within its context by promoting their publication in scientific journals and by promoting their publication as monographs. Furthermore, the results are shared with the scientific community and institutions through international seminars, conferences etc. specifically promoted by the Ph. D Program organisers
